

Slaughter of natural heritage

(This is an) objection to two more baboons killed by the Baboon Technical Team authorities ("Two raiding baboons euthanised", *People's Post*, 10 October).

The Cape of Good Hope Natural World Heritage Site's brochure states: "Table Mountain National Park. A park for All. Forever. Your Natural Heritage".

Then: "Baboons. The Chacma baboon

(*Papio ursinus*) troops on the Cape Peninsula are afforded special protection".

Special protection? Conservation authorities killing our baboons is special protection? Sociopathic I call it.

What a mockery! I object to the slaughter of my natural heritage.
